We are pleased to recommend the law company Zbroja Adwokaci sp.k., with which we have been working continuously since 2010. Throughout this time, the firm has provided us with comprehensive legal services, both in terms of everyday needs and complex court cases.

The company effectively handled legal proceedings for us regarding payment for services in debt collection proceedings, thoroughly addressing each case. Additionally, they coordinated and worked with bailiffs in enforcement proceedings, aiming to recover debts as quickly as possible. Negotiations of agreements and repayment terms with debtors were always conducted with full professionalism, enabling us to achieve satisfactory results.

The law company also successfully managed a complicated company division and supported us in all corporate matters. It handled the ongoing operations of our company, responding to all of our inquiries and providing reliable legal advice in response to emerging challenges. Thanks to them, we always made decisions that protected our interests.

Our long-standing cooperation with the Zbroja Adwokaci team allows us to confidently recommend their services to anyone in need of ongoing high-level legal support.
