

Lawyers from Zbroja Adwokaci supported the company PTS – Shipyard sp. z o.o. from the beginning of its establishment as part of ongoing legal services from 2017 to 2024 in the field of current commercial, civil and labour matters.

Among other things, the law firm represented the company in an international dispute related to the refurbishment of the ship m/v Fjord Connector (under the terms of BIMCO REPAIRCON as amended). Thanks to the law firm's assistance, we were able to develop a common position with the ordering party, which allowed us to end the conflict and leave the parties in good economic relations.

The main strengths of the law firm are its knowledge of the maritime industry, as well as its open and flexible approach to the company's problems, which, combined with many years of experience, as well as its available and dynamic team, make the service provided by Zbroja Adwokaci at the highest level.

Noteworthy is the law firm's efficiency and commitment to the most favourable resolution of disputes. Also the quality of service at the interface of different languages and legal systems was a reason for our satisfaction.

We recommend the law firm Zbroja Adwokaci as a competent partner in maritime matters.

Szczecin, March 31st 2025

Leszek Rychter

Chairman of the Board
