

REFERENCE LETTER

Dear Sirs,

We have been cooperating with the law firm led by Attorney-at-law Patryk Zbroja almost since the very beginning of our company's activity. From the early years, the firm has supported us in legal matters related both to the maritime economy and the rapidly developing offshore wind sector, including international projects.

The legal services provided are of high substantive quality, professional and timely. The Law Firm's team perfectly understands the specifics of port, shipyard and maritime projects, and thanks to practical experience, is able to combine legal expertise with the realities of business and marine engineering.

The cooperation with the Firm has included contract advisory, negotiation support and comprehensive legal services for a number of refurbishment, conversion and modernization projects of offshore units. Selected projects are presented below:

Modernisation, conversion and Mission equipment installation on cable lay vessels (CLV)

Year	Vessel	Project	Scope of works
